Shri Rahul Bajaj

President – Shiksha Mandal, Wardha

Education has to not only reach out beyond the important objective of imparting knowledge but also to gear up to meet the imperative of growth, technological development & demands of globalization, new challenges and international competitiveness. Education is no longer to be considered as something which one gets considered as something which one gets during the early stage of one's life. In today's world, education starts from the cradle and continue till the grave. During the forthcoming years it is the quality of education which will determine who will succeed and who will fail, whether among countries or among companies. Therefore, it has become the need of the hour to develop leader-managers for the future.

DMSR, Nagpur aims at achieving this objective by providing the students the opportunities to enable them to imbibe the skills needed with a spirit of hope and determination. It is the caliber of our students and the quality of education that is imparted which will determine how our MBAs compare with those from other institutes in the opinion of the Corporate Sector.

Shri Sanjay Bhargava

Chairman, Shiksha Mandal, Wardha

Quality with simplicity has been and would remain a Shiksha Mandal's hallmark. An understanding of and an ability to relate to our social environment is also another Shiksha Mandal value. We at DMSR, G. S. College, try to ingrain this in each of our students. We believe our MBA students have these values. These values are eternal and have regained importance in the current difficult economic environment. We do not want to have "I-me-myself" students wracked by greed. Our students have the knowledge, but more importantly have the attitude of frugality, learning, teamwork and hard work that are needed by industry. So, we believe our students represent the old Bajaj tagline "value for money", for years. Like industry, we believe we have to continually improve ourselves to deliver more. We do hope you will give our students and us a chance. We are different and we make a difference.

From the Director's Desk
